

LANDSCAPES IN MOTION ONLINE WORKSHOP

WHAT WE LEARNED AND WHERE WE GO FROM HERE

WHEN: Thursday, Oct. 22 2020, 12:00–4:30 PM (Mountain Time)

WHERE: Online via Zoom at <https://us02web.zoom.us/j/83973969457>

AGENDA

- 11:50 *Join us up to 10 minutes early for informal conversation, getting to know each other, and troubleshooting any technology issues*
- 12:00 **Welcome, introductions and housekeeping**
- 12:20 **Project history and overview** — Dr. David Andison, fRI Research
- 12:35 **Partner perspectives on the importance of Landscapes in Motion** — John Stadt, Government of Alberta
- 12:40 **Breakout session** — *What is your connection to the study area and how does its disturbance history affect you and others?*
- 1:30 **Break**
- 1:40 **Seeing the landscape in new ways** — Dr. Eric Higgs and Mary Sanseverino, Mountain Legacy Project, University of Victoria
- 2:10 **Re-imagining Foothills forests: young, complex and in flux** — Drs. Cameron Naficy and Lori D. Daniels, Forest & Conservation Sciences, University of British Columbia
- 2:40 **Computer simulations of historical fires in the Foothills suggests they were mixed severity: what does this mean going forward?** — Dr. Eliot McIntire, Natural Resources Canada and Dr. Ceres Barros, University of British Columbia
- 3:10 **Break**
- 3:20 **Tying the pieces together: Panel discussion, Q&A and revisiting breakout topics**
- 4:25 **Closing**
- 4:30 **Workshop concludes**

LANDSCAPES IN MOTION ONLINE WORKSHOP

WHAT WE LEARNED AND WHERE WE GO FROM HERE

BREAKOUT SESSION: QUESTIONS

During the breakout session for this workshop, we invite you to discuss and share your perspectives on the landscape—this may be the LIM study area if you live or work there, or it may be western forests and landscapes more generally.

INSTRUCTIONS

Someone from the Landscapes in Motion team will join you as a note-taker for the session.

Following the breakout session, groups will have the opportunity to report back. To avoid unnecessary repetition, a subset of the groups will be selected at random to share the key points of their discussion, after which we will open the floor for anyone to share any new or different perspectives/responses.

Please note: these questions are intended as a guide and as discussion prompts. This is an open session and you are welcome to follow the conversation where it leads!

DISCUSSION QUESTIONS

1. How do you interact with or use this landscape? (e.g., forestry, traditional land use, hiking...)
2. How would you define the pre-and post-industrial disturbance history in western Canada/the study area?
3. (How) does this disturbance history affect you and others?
